

Summer Reading

Elementary School (1st Grade through 5th Grade)

Remember to read as often as possible
with your child over the summer!

Statistics show that reading during the summer helps students retain information and avoid summer regression.

For current TKA students or new-to-TKA students entering **1st grade through 5th grade**, you have the option of using the attached reading log to read a minimum of **ten** self-selected books this summer.

Any student who completes this log and brings it the first week of school will receive a 100 quiz grade in reading. If your child chooses **not** to complete this assignment, it will not affect his/her grade. This is an **optional summer reading opportunity**, not mandatory.

Also, be sure to check out your local public library for great book selections and/or summer reading incentive programs!

Have a great summer! Enjoy your books! ☺
